

Standard Quote Validity Terms

Quoted prices are valid for ordering and shipping during the **180-day window from the original quotation date**.

Due to continuing volatility in raw materials, energy, and transportation costs, delivery must be taken complete within the 180 days of the original quotation date.

Orders and/or quotes that remain open after that 180-day period will be subject to price review and/or cancellation, at our sole discretion.

These terms supersede Paragraph 2 (Quotation) of the McWane Plant & Industrial, LLC Terms and Conditions of Sales – US available for download on our website.
